

TITAN HK 458 TIRE DEVELOPMENT

Borrowing from tread elements covering multiple applications, the HK 458 has been meticulously engineered to provide unsurpassed strength and durability, tremendous traction in dirt/gravel, and superior self-cleaning, all in a modern aggressive design.

TITAN ND LCM LOWER CAVITY & BEAD AREA

Used on Mobile Cranes, the rugged cavity and bead area of the ND LCM is able to withstand massive front end weight and downward pressures when lifting and carrying large loads.

GOODYEAR LOGGER LUG III TREAD DESIGN

There are fewer environments as deadly to tires as the Forest. The Logger Lug III's tread pattern provides amazing traction and self-cleaning to ensure forestry skidders can make it through the worst conditions.

TITAN AT 589 SIPING AND DECK STYLING

Aggressive tread elements borrowed from our ATV tire line the AT 589 provide the lugs with multiple edges and siping along with deck elements providing increased traction and better cleaning of mud and dirt build up all while providing a modern look and styling to make the HK 458 an innovative powerhouse in the wheel loader tire market.
